

INVITED SESSION SUMMARY

Title of Session:

Smart Buildings and their effects on the industry enhancements

Name, Title and Affiliation of Chair:

Dr. Imene Yahyaoui, Polytechnic Industrial School, University Carlos III of Madrid, Spain

Details of Session (including aim and scope):

A smart building has a much higher value proposition if it operates in smart city community, so to improve the work' environment. In order to make industrial buildings safer, more secure and environmentally sustainable, this special session aims to attract papers that focus on the environment governance, public safety, city planning, industry facilitation, resource utilization, energy conservation, traffic control, telemedicine, homecare, interpersonal communications, social activities and entertainments. In addition to this, papers that deals with distributed smart devices, intelligent decision making, and improvement of the urban living quality as well as distributed network of intelligent sensor nodes and data centres/clouds are very welcome.
